Mark/Ed/Mary,

- **Atchison Hospital reports that they have seen 34 or 35 patients related to the**

incident that will be under observation for the CDC recommended 6 hours. One (1) patient is in ICU with respiratory distress. They had a lot of providers (physicians, PAs, nurses). They are in good shape right now.

- EPA R7 continues to coordinate with local and state response officials (MDNR and KDHE) and Missouri CST (in the State of Missouri).
- All clear has been given (see note below from Atchison).

From: Ferguson, Doug

John Jacobson, CEO of Atchison Hospital. They have seen 34 or 35 patients related to the incident that will be under observation for the CDC recommended 6 hours. One (1) patient is in ICU with respiratory distress. They had a lot of providers (physicians, PAs, nurses) available plus a light surgery schedule since it was Friday and they opened up pre- and post-op for the observation area. They are in good shape right now.

Subject: EPA OSC dispatched to Atchison, KS: MGP Ingredients

Mary,

FYI. Region 7 is dispatching Paul Doherty, OSC (w/ START contractor support) to supporting state and local emergency response officials on a chemical release in Atchison, Kan. There have been evacuations and injuries reported via local media sources. The EPA on-scene coordinator has been sent to the site to assist first responders and continue operational assessments (air monitoring). Region 7 is coordinating with KDHE, FEMA, EPAHQ EOC. We are coordinating with our R7 Public Affairs (David Bryan) and AWMD (Dave Hensley). We know from Tier II reporting there is also 72,000 lbs of propylene oxide stored on-site.

There is reportedly a very broad evacuation zone: Public schools, Benedictine College, etc. and have been evacuated.

NRC has sent EPA and the state a notification of the release at around 10:30 a.m..

CALLER IS REPORTING WHILE UNLOADING A TRUCK OF SULFURIC ACID, THE PRODUCT WAS PUMPED INTO A TANK CONTAINING SODIUM HYPOCHLORITE. THIS RESULTED IN A CHEMICAL REACTION WHICH CAUSED A RELEASE OF UNKNOWN MATERIAL VAPOR INTO THE AIR. This would likely produce chlorine vapor cloud.

ED_002042_00001428-00003

Paul Doherty, OSC will report to:

Command Post:

216 South 10th Street

Atchison KS

Next to Taco John's
